Mike Kerl

Mike Kerl is an independent health insurance broker who recently celebrated 10 years at BeneServ Corporate Benefit Services which is located in the Office Suites at Stoney Creek Shopping Center on Baltimore Pike in Springfield. Mike is appointed with every health, dental, life and disability insurance carrier in PA, NJ, DE and MD. Since health insurance premiums are the same no matter how you purchase coverage (direct from the carrier or through a broker), Mike and BeneServ separate themselves from the competition by providing unequalled service and an unmatched knowledge of the industry. Mike is one of the few "certified" A.C.A. (Health Care Reform) brokers in PA.

Many of Mike's clients have been with him from the beginning and his largest clients are all direct referrals from his small business customers.

Although most of his clients are employers ranging from 2 - 200 employees, he often provides coverage for those in need of individual health insurance. Recently Mike has been very busy assisting Medicare eligibles with their options regarding Medicare Supplement and Part D prescription

plans. He spends many evenings conducting one on one meetings with retirees in their homes.

Mike is currently on the GSBA Board of Directors serving as Vice President . His 2 year term as President ended in early 2013.

Although he grew up in Havertown, he now lives in the "Scenic Hills" section of Springfield with his beautiful wife Cheryl and 2 awesome girls, Grace and Bailey.

Mike holds integrity paramount in his business and personal life and treats every prospect as if they were his own family.

He likes to spend his spare time exercising, playing guitar, spending time with his family and enjoying

Mike Kerl

"snacks and cocktails" with good friends.

Please contact Mike Kerl anytime if you need advice about health insurance explained in a simple manner.
