Mike DiTrollo

Mike DiTrollo

Active Image Media is a professional digital imaging production firm dedicated to providing its customers with quality photography, video, and digital imaging services by preserving memories and telling stories. Active Image is committed to providing these services by combining state of the art technology with old-fashioned service and support. We provide these services promptly, professionally, and at a reasonable cost.

Founded by Michael DiTrollo in 1978, Michael is proud that one of his first customers was the Springfield Youth Club and continues that relationship with them today.

In addition to photography, video production continues to be a vital part of the company. Traveling to all parts of the world including Turkey, Bosnia-Herzegovina, France, Italy and almost all 50 states, Active Image has produced uplifting

videos in several different languages for distribution. Locally, projects for Villanova University, the Archdiocese of Philadelphia, the Please Touch Museum and many schools and corporate institutions have benefited from Active Image's talented production team.

Michael DiTrollo is quick to note, however, that the relationships that he has gained through the years is the key to his success. He is grateful to the many sports groups, schools, corporations and families who have trusted their valuable memories and promotional image needs to him.

If you're looking for a lasting, personal relationship for supplying photographic, video and digital imaging needs, we would love to work with you!

With passion, creativity and integrity, **Active Image Media** embodies "THE MEMORY OF QUALITY."
